Sprint 3 Report

English with Sammy

Actions to stop doing:

- Working disjointly from one another in order to ensure consistency

Actions to start doing:

- Documenting code (leaving a comment, use readable variable names...)
- Check what other people are doing with their tasks to ensure consistency between all tasks and user stories

Actions to keep doing:

- Update daily on discord
- Communicating and collaborating with each other

Work completed / not completed:

Completed:.

- As a user, I want to choose the category of words, so that I can study words relevant to me.
- As a developer, I want to integrate and document every game so that the user can enjoy multiple different games without any issues.
- As a developer, I want to make a web page with a polished design so that it is more engaging and easy to use.

Not Completed:

- As a user, I also want to choose the difficulty of the game, so that I can play the game with my unique game style / so that I don't have to worry about making a mistake and so I can challenge myself in multiple ways. **(Sprint backlog)**

Work completion rate :

Total number of user stories completed during the prior sprint: 3 user stories complete out of 4 user stories as per the Sprint 3 plan

Total number of estimated ideal work hours completed during the prior sprint: Total time predicted was 36 hours and the time it took was 26 hours.

Total number of days it took during the prior sprint: 4 days in total
